A-Project: Aluminium Bahrain, B.S.C. (Alba) - ALBA Potline (6) and Power Plant (PS 5) Expansion

Exporter: GE Global Parts & Products GmbH, Baden

Aluminium Bahrain (Alba) is planning a further expansion from its current level of production of approximately 884,000 tonnes per annum of Primary Aluminium, to a nominal production capacity of 1,446,321 tonnes of aluminium per annum via an additional Potline and Power Station - the Line 6 (L6) & Power Station 5 (PS5) Project - .

Upon completion, Alba will become the world's largest single-site aluminium smelter.

GE is delivering gas turbine generator sets (GTG), steam turbine generator sets (STG) and auxiliary systems including internal piping and heat recovery steam generators.
