A-Project: MHP S.A. Vinnitsa Complex, Ukraine

Exporter: Bühler AG

Mironovsky Hleboproduct MHP is a vertically integrated poultry and grain producer. It owns and operates the key steps of the chicken meat production process, starting from crop growing (corn, wheat, sunflower, and rapeseed); grain processing; feed grains and fodder production and egg incubation to grow out of chickens, poultry processing, distribution and sales. Associated agricultural operations include sunflower oil, sausages and cooked meat production; fruit growing and sell; cattle breeding; meat processing; goose and “foie gras” production.

In line with its strategy of expansion of poultry production the Company is building the Vinnitsa Complex – vertically integrated facilities with a production volume at 4 separate stages, every of which will produce about 100,000 tons of poultry a year.

As a part of the Vinnitsa complex a feed production complex will be constructed, including 2 elevators for corn and sunflower storage with capacity of 200 thous. m3, an oil-crushing plant with capacity 1,500 t/day, a feed mill with capacity 180 t/h, administrative facilities, a canteen, infrastructure, including a steam plant, gas-distributing point, heating point, waste water treatment facilities etc., storage, logistic and check-point facilities and access railway. The Swiss export is delivered to this part of the project, which will be built on the territory of the production complex in Ladyzhyn, next to the poultry farm.
