A-Project: Ghorasal 3rd Unit Repowering Project, Bangladesh

Exporter: Alstom (Switzerland) Ltd.

The upgrade of the the 3rd Unit of the Ghoras(h)al Power Plant, 40 kilometers from Dhaka involves changing an existing 210 megawatt steam turbine unit into a combined-cycle power plant of more than 400 megawatts. This will significantly improve the efficiency of the existing unit, increasing the generation of low-cost electricity without the need to draw upon additional gas supplies. The power complex is connected to the grid and will use the existing gas supply arrangement from Petrobangla.

The Swiss supplier Alstom (Switzerland) Ltd is responsible for the conversion of existing gas fired steam turbine no 3 of 210 MW into a combined cycle power plant of 400 MW and the respective deliveries and services.
